# 3<sup>rd</sup> International Strategy Conference on Occupational Health and Safety

Hans Horst Konkolewsky  
Walter Eichendorf

6-8 February 2013,  
DGUV Congress Dresden

# The key messages of this conference

Primary care and prevention must be linked:  
**“Work is a good place for health”**

## Three dimensional approach: OSH, WHP and RTW

## Health and healthy lifestyle at work: Workplace is an environment where you can shape behaviour

## Prevention is networking: all stakeholders involved

## Supply chain of prevention:

“No prevention culture without networking – no networking without a strategy - no strategy without indicators”

## Information and education first: principle of early prevention

## Prevention experts are the “agents of change”

## Engagement leads to empowerment: legislation, industry ownership, culture

# Action Points

## Prevention culture

Roadmap

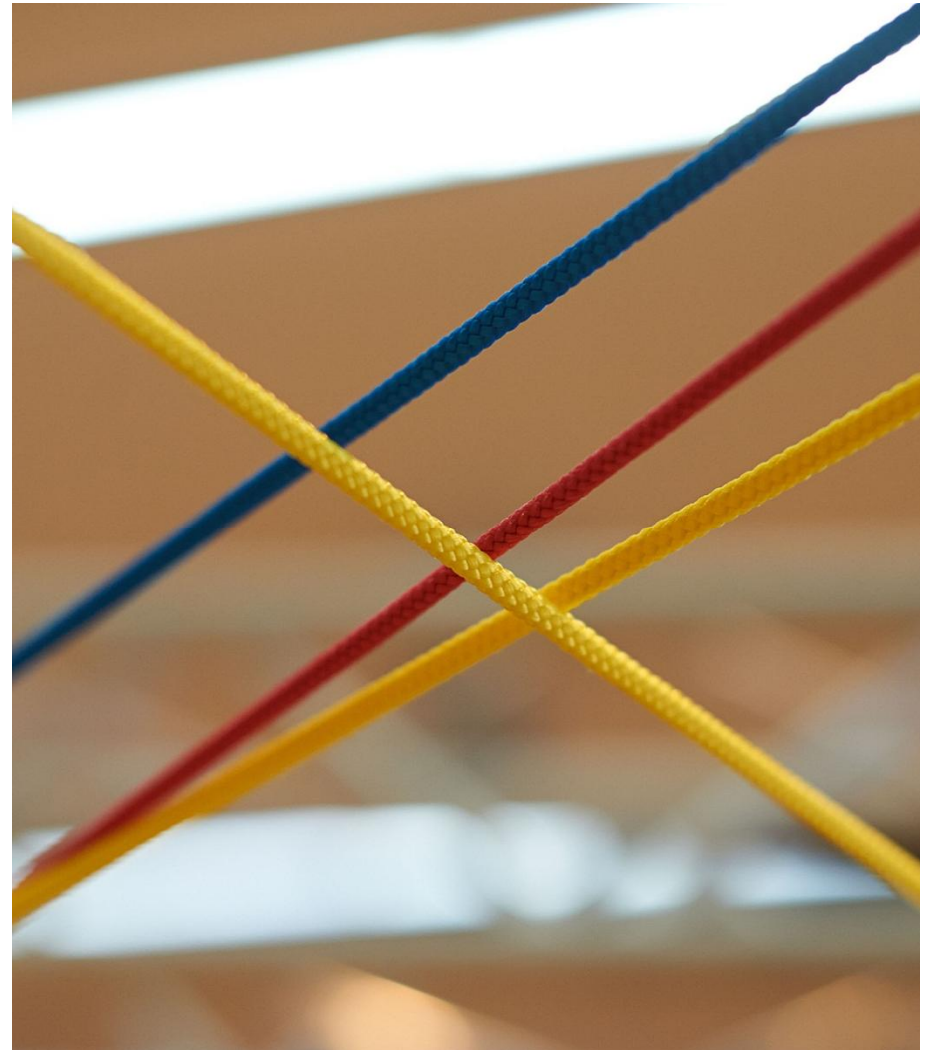

Dresden – Helsinki – Frankfurt

1. Definitions

2. Indicators
